## INVENTORY MAINTENANCE SYSTEM

ONLY AT  
**THE HOUSE**

### WHAT IS IT?

It's a managed service that keeps your people working by having what they need close at hand when they need it.

### HOW DOES IT WORK?

Together we will assess your job and tailor a service that fits your situation. We will supply our standard **Kelly Cabinet** or any of a number of storage containers available from us. We'll arrange a set up date and customize an inventory list to your exact specifications. We will produce the restocking order, place the order, deliver it and put it away all at a savings to you.

### WHAT ITEMS ARE AVAILABLE?

We stock thousands of items from fasteners and safety supplies to cutting tools & strut. We'll customize your list to meet your needs.

### WHAT DOES THE SERVICE COSTS?

**NOTHING! THE SERVICE IS FREE.**

The cost of products delivered through the **Kelly Cabinet Inventory Maintenance System** is the same as if you called and ordered it yourself. There are no hidden charges for delivery, goods or service.

### WHAT ARE THE BENEFITS?

**Control.** The **Kelly Cabinet** is locked. You control the keys. The restocking orders are approved by you.

**The Kelly Cabinet** will keep your job running by having the items you need, when you need them and will reduce clerical work by your jobsite staff. Return unused items for full credit, and we'll handle that for you as well, so there's less clean up at the end of the job.
